Cleveland, Ohio

**A**T THIS TIME, BAKER ELECTRIC VEHICLES need no introduction. Actual service that has proven highly satisfactory with demonstrated qualities of durability in the five years they have been upon the market has so thoroughly established reputation that they are universally admitted as the best of the Electric type of automobiles.

Baker Electrics are a complete embodiment of refinement in carriage making art. Rich in their interior as well as exterior finish—with lines that are distinctively smart; strong, without any superfluous weight; adjustable in all wearing parts; absolutely free from lubricants, odor and noise, and the simplest and safest in control of any automobile in the world.

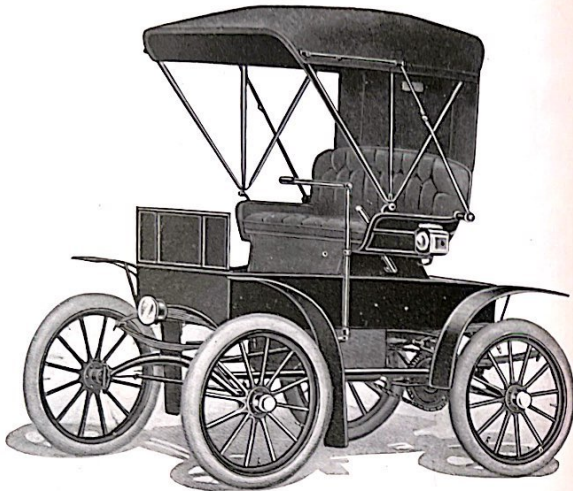

The Bakers are the best.
